REESE TOWER SERVICES ANNOUNCES ADDITION TO LEADERSHIP TEAM

Drums, PA – Reese Tower Services (RTS) is pleased to announce that Jeremy Klapac has joined the organization as Vice President.

“We’re delighted that Mr. Klapac has joined Reese Tower Services and will be bringing his vast experience in the modification industry to expand our abilities to serve our custom’s needs” said Brian Reese, President, “Jeremy brings a unique combination of operations expertise, extensive background in tower mods and a focus on client service which are the perfect compliments to our engineering services in this market.”

“Jeremy is well-known and well-regarded across our industry” said Reese. “We look forward to his leadership internally, but more importantly his contributions to both our existing clients and the new relationships he’ll be developing.”

About Reese Tower Services: Operating across North America, RTS assists in maximizing the value of vertical assets by structural enhancements, inspections, and maintenance. RTS’s expertise lies in its years of experience with tower structures from engineering through manufacturing, installation, and field modifications for repair and/or to enhance structural capacity. RTS is an expert in ground-based and safe aerial inspections including condition assessments, retrieving engineering data, performing weld inspections, and non-destructive testing.
